ECOLOGICAL MONOGRAPHS

A QUARTERLY JOURNAL
FOR ALL PHASES OF BIOLOGY

EDITORS: BOTANY, C. F. KORSTIAN, Duke University, Durham, N. C.
ZOOLOGY, A. S. PEARSE, Duke University, Durham, N. C.

BUSINESS MANAGER: EXIE DUNCAN, Duke University Press.

MEMBERS OF THE EDITORIAL BOARD

1942-44
J. M. Aikman, Iowa State College, Ames, Iowa.
H. J. Van Cleave, University of Illinois, Urbana, Illinois.

1943-45
Arthur W. Sampson, University of California, Berkeley, California.
Walter P. Taylor, U. S. Fish and Wildlife Service, College Station, Texas.

1944-46
F. W. Albertson, Fort Hays Kansas State College, Hays, Kansas.
H. E. Ewing, United States National Museum, Washington, D. C.

EX OFFICIO: Charles E. Olmsted, University of Chicago.
Thomas Park, University of Chicago.

The editorial board of this journal will consider ecological papers which are in general long enough to make twenty printed pages or more. Shorter ecological papers should be submitted to the editor of *Ecology*, which is also published by the Ecological Society of America. Both journals are open to ecological papers from all fields of biological science.

Manuscripts should be typewritten and may be sent to any member of the Editorial Board. Proof should be corrected immediately and returned to the Managing Editor at the address given above. Reprints should be ordered when proof is returned. Fifty copies, without covers, are supplied to authors free; covers and additional copies at cost. Correspondence concerning editorial matters should be sent to the Managing Editor; that concerning subscriptions, change of address, and back numbers to the Business Manager.

Subscription price, $6.00 per year. Parts of volumes can be supplied at the rates for single numbers, $1.50 each. Missing numbers will be supplied free when lost in the mails if written notice is received by the Business Manager within one month of date of issue. All remittances should be made payable to the Duke University Press.

Agents in Great Britain: The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1. Prices can be had on application.

Entered as Second-class Matter at the Postoffice at Durham, North Carolina

The Ecological Society of America

OFFICERS FOR 1944

President, Robert F. Griggs, George Washington University, Washington, D. C.
Vice-President, Alfred C. Redfield, Oceanographic Institution, Woods Hole, Massachusetts.
Secretary, William A. Dreyer, University of Cincinnati, Cincinnati 21, Ohio.
Treasurer, Henry J. Oosting, Duke University, Durham, North Carolina.
Additional Members of the Executive Committee: C. F. Korstian, Orlando Park, J. M. Aikman.

AIMS

The Ecological Society of America was founded in 1915 for the purpose of giving unity to the study of organisms in relation to environment, as a means of furthering intercourse between persons who are approaching widely different groups of organisms from closely related points of view, for the stimulation of ecological research, and to assist the development of the utilities which may be served by ecological principles.

MEMBERSHIP

Membership is open to persons who are interested in the advancement of ecology or its applications, and to those who are engaged in any aspect of the study of organisms in relation to environment.

The following classes of membership are recognized:

Associate Members, annual dues, $1.00.
Contributing Members, annual dues, $2.00 to $10.00 or more.
Active Members, annual dues, $5.00.
Institutional Members, annual dues, $6.00.
Sustaining Members, annual dues, $10.00.
Sustaining Institutional Members, annual dues, $11.00.
Life Members, single fee, $100.00.
Sustaining Life Members, single fee, $200.00.

Three dollars of the dues received from active members, or of the interest in the case of Life Members of both classes, are applied as the annual subscription to Ecology. Six dollars of the dues of Sustaining Members, and of the interest from the fees of Sustaining Life Members, are applied as the annual subscription to Ecological Monographs, the quarterly journal for longer articles. Members in arrears for dues will, on payment, be supplied with back numbers so far as they are available, but the journals do not hold themselves responsible for reserving back numbers in anticipation of the payment of back dues.

All members receive the Bulletin of the Ecological Society of America, issued by the Secretary in March, June, October, and December. It contains announcements of meetings and excursions of the Society, abstracts of papers, programs, items of current interest to members, and occasional membership lists.

Associate members do not receive Ecology or Ecological Monographs and are not eligible for office, but may become members in any one of the above classes upon the payment of the appropriate dues.

Contributing members may designate the function of the Society to which the contribution, in excess of one dollar, is to be devoted and they receive appropriate publications dealing with the activities for which the contribution is made. Members of any class may be Contributing members also. Contributing members, if not belonging to any other class, are not eligible for office.

Checks should be made payable to Ecological Society of America. Application blanks for membership may be obtained from the Secretary, to whom all correspondence concerning membership should be addressed.

NATURE AND DEGREE OF RECOVERY OF GRASSLAND FROM THE GREAT DROUGHT OF 1933 TO 1940

J. E. Weaver
University of Nebraska

and

F. W. Albertson
Fort Hays Kansas State College

ERRATA

The folio lines at top of left hand pages should be read J. E. Weaver and F. W. Albertson instead of the order in which the authors' names are printed.

The Editors.

TABLE OF CONTENTS

PAGE

INTRODUCTION 395
ENVIRONMENT IN TRUE PRAIRIE 396
Precipitation 396
Evaporation 396
Water content of soil 397
SEVERITY OF DROUGHT IN 1934 398
EVALUATION OF CONDITIONS IN 1935 398
Decrease in perennial grasses 398
Loss of understory 398
Increase in certain native forbs 399
Invasion of ruderals 400
Increase of certain native grasses 400
RECURRENCE OF SEVERE DROUGHT 401
RECOVERY IN 1938 401
DROUGHT OF 1939-1940 402
RECOVERY; DEVELOPMENT OF GRASSLAND TYPES ... 403

TABLE OF CONTENTS

Volume 14, 1944

Number 1, January

PAGE

Effects of Drought, Dust, and Intensity of Grazing on Cover and Yield of Short-grass Pastures
F. W. Albertson and J. E. Weaver 1

Ecological Studies of Sessile Rotatoria. Part I. Factors Affecting Distribution . . . . W. T. Edmondson 31

Measurement of Bird Populations . . . . . S. Charles Kendeigh 67

Important Species of the Major Forage Types in Colorado and Wyoming . . . . . David F. Costello 107

Number 2, April

Natural Vegetation of the Island of Tobago, British West Indies . . . . . J. S. Beard 135

Some Rodent Populations in the Sierra Nevada of California
T. I. Storer, F. C. Evans, and F. G. Palmer 165

A Community Study of a Disturbed Deciduous Forest Area Near Cleveland, Ohio, with Special Reference to Invertebrates . . . . . William W. Dowdy 193

Mountain Climates of the Western United States . . . . . F. S. Baker 223

Number 3, July

A Ten-Year Ecological Study of Adjoining Grazed and Ungrazed Woodlands in Northeastern Ohio
Charles A. Dambach 255

Ecologic Relations and Adaptations of the Limbless Lizards of the Genus Anniella . . Charles M. Miller 271

Ecological Studies of the Pauropoda of the Duke Forest . . . . . James Holt Starling 291

Some Aspects of the Ecology of the Iguanid Genus Uma . . . . . Robert C. Stebbins 311

The Fate of Animals in Stream Drift When Carried into Lakes . . . . . Jack S. Dendy 333

Number 4, October

Light, Eyestalk Chemical, and Certain Other Factors as Regulators of Community Activity for the Crayfish, *Cambarus virilis* Hagen . . . . . Tilden W. Roberts 359

Nature and Degree of Recovery of Grassland from the Great Drought of 1933 to 1940
J. E. Weaver and F. W. Albertson 393
